MOHAMMED SALEH ABDO AL HAMLEI

PROJECT MANAGER | CONSTRUCTION MANAGER — Water, Wastewater & Infrastructure

Civil Engineer · PMP® · PMI-RMP® · Saudi Council of Engineers (No. 189892)

Riyadh, Saudi Arabia · +966 59 616 0199 · m.alhamly2022@yahoo.com · Available immediately

PROFESSIONAL PROFILE

PMP- and PMI-RMP-certified civil engineer with 17 years of construction and infrastructure delivery in Saudi Arabia and Yemen, 12 of them leading projects for Future Horizons Contracting. Delivered water, wastewater, pumping station, pipeline and industrial civil works for Saudi Aramco, NWC, NEOM and the Ministry of Environment, Water & Agriculture, on contracts of approximately SAR 6M to SAR 160M with site workforces of up to 250.

Formally approved as key personnel by clients and consultants on four projects, including NEOM (via Bechtel) and Dorsch for NWC. Known for keeping sites productive under incomplete design, permit and access constraints, optimising execution methods, and administering contracts, changes and delays to secure time and cost entitlement, with formal training in FIDIC contracts.

CAREER HIGHLIGHTS

- **Tier-1 clients:** Saudi Aramco (MGS III), National Water Company, NEOM and MEWA water services directorates in Asir and Al-Baha.
- **Scale:** Contracts up to approx. SAR 160M; peak workforce of approx. 250; three geographically separated work fronts run in parallel.
- **Safety:** NEOM / Bechtel Certificate of Achievement for maintaining positive safety standards.
- **Linear infrastructure:** Delivered a 28 km water transmission pipeline with pumping station and collection tank through handover.
- **Trusted by clients:** Approved as key personnel by NEOM (Bechtel), Dorsch Holding for NWC, and MEWA in Asir and Al-Baha; recognised by Future Horizons for 10+ years of service.

CORE COMPETENCIES

Delivery & Controls	Commercial & Contracts	Technical & Site
▪ Project & construction management	▪ Contract administration (FIDIC)	▪ Water & wastewater treatment plants
▪ Execution planning & sequencing	▪ Change management	▪ Pumping stations & transmission pipelines
▪ Progress monitoring & reporting	▪ Claims & EOT documentation	▪ Reinforced concrete & civil works
▪ Cost control & budgeting	▪ Subcontractor management	▪ QA/QC & inspections
▪ Resource & manpower planning	▪ Stakeholder & consultant coordination	▪ HSE compliance
▪ Risk & issue management	▪ Handover & closeout	▪ Multidisciplinary interfaces (Mech, E&I)

PROFESSIONAL EXPERIENCE

Project Manager | Reliable Lines Contracting Co. (RELY) *Jan 2026 – Jun 2026*

Saudi Aramco Master Gas System Expansion Phase III (MGS III), Package 13, Riyadh Cluster — civil scope approx. SAR 6M · peak workforce approx. 120 · 3 work fronts · *Riyadh Region*

- Directed civil works across Durma, Marat and Shaqra, aligning manpower and equipment with milestone priorities on three separated fronts.
- Delivered security and metering buildings, foundations, duct banks, sump pits, pipe supports and pedestals; managed civil interfaces with mechanical, electrical and instrumentation teams.
- Cleared drawing, permit, access and inspection constraints with the main contractor, consultant, survey, QA/QC and HSE; resequenced activities to keep production continuous.
- Documented changes, delays and additional works to support time and cost entitlement; drove inspections, handover and closeout.

Construction Manager | Future Horizons Contracting Co. *Jan 2025 – Dec 2025*

NWC Wastewater Treatment Plant, Sewage Networks and Overflow Lines, Al-Qahmah — approx. SAR 160M · *Al-Birk*

- Approved by consultant Dorsch Holding as the contractor's Construction (Executive) Manager following CV review and interview.
- Mobilised and ran early construction in parallel with design development, matching work fronts to drawing readiness.
- Deployed manpower, equipment and subcontractors around technical constraints; secured timely client and consultant decisions to keep activities open.

Construction Manager | Future Horizons Contracting Co. *Aug 2022 – Dec 2024*

NEOM Design & Build of Al Khuraybah and Al Muwaylah Water Filling Stations — approx. SAR 40M · peak workforce approx. 200 · *NEOM*

- Approved by NEOM as key personnel (Construction Manager) through the NEOM / Bechtel review workflow.

- Led two sites from mobilisation to handover: civil works, subcontractors, inspections and punch-list closure.
- Received NEOM / Bechtel Certificate of Achievement for positive safety standards.

Construction Manager | Future Horizons Contracting Co. *Jun 2021 – Jul 2022*

Al Qunfudhah Wastewater Treatment Plant — approx. SAR 70M · peak workforce approx. 250 · *Al Qunfudhah*

- Led construction sequencing, manpower, equipment and subcontractors; coordinated technical and quality teams to resolve site constraints and lift productivity.

Project Manager | Future Horizons Contracting Co. *Sep 2019 – Jun 2021*

Wadi Al-Janabeen Rehabilitation (Al-Baha) and Al Rass Pumping Station · *Al-Baha & Al Rass*

- Approved by MEWA (Water Services, Al-Baha) and consultant Dar Makkah as Project Manager for Wadi Al-Janabeen.
- Ran planning, resources and client / consultant coordination on two concurrent assignments; administered scope additions that grew Wadi Al-Janabeen from approx. SAR 6M to SAR 8M.

Project Manager | Future Horizons Contracting Co. *Nov 2017 – Sep 2019*

South Bisha Villages Pumping Station, Collection Tank, Distribution Station and 28 km Transmission Pipeline — approx. SAR 30M · *Bisha*

- Approved by MEWA (Water Services, Asir) as Project Manager.
- Delivered the integrated water scheme and 28 km pipeline through handover, coordinating contractors and suppliers to keep materials and work fronts continuous.

Construction Manager | Future Horizons Contracting Co. *Feb 2016 – Oct 2017*

PSB Pumping Station, Al-Wajeed Purification Plant to Tathleeth Transmission Line

- Managed civil execution, sequencing, subcontractors, inspections, quality and progress reporting.

Site Manager | Future Horizons Contracting Co. *Dec 2013 – Feb 2016*

Mahayel Asir Water Collection Tanks and Pumping Station — approx. SAR 56M

- Managed daily execution, manpower, materials, subcontractors and inspections.

Earlier Experience (2009 – 2013)

- **Engineering Consultant**, Social Fund for Development, Yemen (May 2012 – Nov 2013) — preliminary studies, quantity take-offs and cost estimates for school projects in Lahj and Abyan.
- **Construction Manager**, Save the Children International, Yemen (Feb 2012 – May 2012) — led a 25-member team on school sanitation facilities.
- **Site Engineer**, Shawahd Construction & Trading Co. (Oct 2009 – Jan 2012) — quantities, estimates, labour and subcontractor coordination.

CERTIFICATIONS & MEMBERSHIP

Credential	Issuer	No.	Valid
PMI Risk Management Professional (PMI-RMP)®	Project Management Institute	4525832	Oct 2026 – Oct 2029
Project Management Professional (PMP)®	Project Management Institute	4500552	Aug 2026 – Aug 2029
Professional Accreditation — Civil Engineer	Saudi Council of Engineers	189892	Member since 2014

EDUCATION

B.Sc. Civil Engineering — University of Aden, Yemen, 2009 (five-year programme; attested by the Saudi Cultural Attaché)

PROFESSIONAL DEVELOPMENT

- Understanding FIDIC's Standard Form of Contract (Engineering Tracks) — 20 contact hours, Oct 2026
- AACE Certified Cost Professional (CCP) preparation — 30 contact hours, Jul 2026
- PMI Construction Professional (PMI-CP) course — 24 contact hours, Jul 2026
- From Quality Professional to Lead Auditor: ISO 9001 — webinar, Jul 2026
- PMP preparation — 35 contact hours (2025) and 35 contact hours (2020, TVTC-accredited)
- Primavera P6 — 15 hours (2020); further course in progress
- AutoCAD and Hydraulic Systems Design
